TheHorseCourse is a revolutionary approach to mental health/self-regulation with excellent impact evidence. We help people to become calm and focused by learning to communicate with specially trained horses from the ground. Our programmes train people to recognise and manage anxiety or dominance causing them to become disengaged, disorganised, shut down or aggressive.

#### **TRAININGS**

#### **Non-verbals Toolbox Training**

For frontline professionals in mental health, social work and education, and for parents. Talking is often ineffective when people shut down, zone out, become upset, disruptive or chaotic. We offer training in our specialism – reading body language and responding appropriately with non-verbal strategies to help people become calm and engaged. Also for anyone (especially young people) to understand their own emotions better, in a non-medical way.

#### **Deep Dive Day**

A full day to understand all our materials and methodology, some hands on time and to ask any questions! This appeals to equestrians, frontline professionals and others wishing to see "under the hood".

#### **Facilitator Training**

For those wishing to replicate our successful services around the UK or internationally. By application only, with specific horsemanship credentials.

Services	Details	Costs
ReStart	Our flagship, evidence-based equine-assisted behaviour change programme. By referral only from professionals in mental health, social work or education. I:I for 2 hours/day, over 5 consecutive days. Participants get our Skills Star, a DVD and photos to take home and are given the chance to be videoed for an external horsemanship assessment.  By referral only, we provide detailed feedback and handback.	£950 person
Lighter Touch	Various session types of I–2 hours, focusing on one or several Star Skills:  • Tasters or Top ups for ReStart participants, I-to-I or in family groups  • Highlight sessions, usually at a 3:I ratio, we can accommodate groups of up to I2 people. Suitable for:  - School groups to work on a single issue, eg assertiveness  - Community groups or support services bringing a group for a taster session or to work on a single issue  - Frontline worker and client for relationship-building  Some sessions are listed on Eventbrite, otherwise please call to arrange something for your group.	£95 facilitator hour

#### The ReStart: how it works

We do very little talking - the course is action-based, designed to interrupt participants' usual thinking and emotional responses, whilst responsive to their pace and needs. It is effective because of the challenging programme of activities in which people succeed only by altering their presentation in response to coaching from expert facilitators. They learn and rehearse the eight skills shown on the THC Skills Star below and positive habits are rewarded with success in an urgent context with clear feedback from unbiased, sensitive and expressive horses.

In the final session the facilitator and participant reflect on our Skills Star and talk through successful strategies that can be taken away into real life. Our lighter touch sessions also focus on one or several of these 8 skills.

The ReStart was designed within a 3 year action-research project in partnership with two universities. Our success relies strongly on the style and quality of our horsemanship and our rigorous staff training. We test everything we do through robust external evaluation.

#### **Partners**

We are committed to bold innovation and rigorous monitoring and evaluation. We are considered by senior academics and sector experts to be international leaders in the equine-assisted field. As a charity we aim to deliver excellent services and to promote best practice as widely as possible in order to reduce social exclusion. We offer workshops and information widely. We cannot endorse everyone who has attended a training or who uses our materials. Approved THC Facilitators are listed on *thehorsecourse*. *org/team*. They are carefully selected, trained, assessed and supported.

These horses are great teachers.

Seeing people getting a horse to do something for them simply by controlling their own moods is incredible.
